RESPONSE TO SEQUENCE LISTING REQUIREMENT

Honorable Commissioner for Patents
Washington, D.C. 20231

Sir:

Responsive to the Notice to Comply with Sequence
Listing Rules included in the Notification of Missing
Requirements dated October 15, 2001, applicants state as
follows:

Upon a careful review of the application as filed,
applicants have determined that the text of the application
does not contain any sequences with at least 4 amino acids or
10 nucleotides. Consequently, the sequence rules do not apply
in this matter, and applicants are proceeding in reliance
thereof. In the event that the USPTO has identified sequence
disclosures in the instant application that require a sequence

identifier and presentation in a sequence listing section, the USPTO is respectfully invited to point out the identified sequence disclosures to the applicants.

Respectfully submitted,

BROWDY AND NEIMARK, P.L.L.C.
Attorneys for Applicant(s)
